Subject: SC Needs Uber

I am extremely disappointed by the Public Safety Commission's decision to order Uber to cease and desist. As someone who regularly uses Uber's services, I believe the PSC's decision is short sighted and unfair to the South Carolinians who rely on Uber to provide quick, convenient, and safe rides. Uber cars and their online service are far superior to the outdated, unclean, and inconsistent service offered by taxis, which are more expensive. In my experience, taxi drivers drive recklessly and are not held to the same standards Uber holds for its drivers.

In addition, ordering the company to stop service without notice and putting the hearing on hold indefinitely sends a poor message to individuals and businesses that visit our state or are considering doing business here.

The decision also impacts the Uber drivers. Most of the drivers I have met are hard working SC citizens who hold other jobs and rely on Uber for additional income. My heart goes out to the young man who depends on his night shift as an Uber driver to provide food and shelter for his wife and young son.

All Uber drivers must pass local, state, and federal background checks. They also must carry 20x the minimum insurance required of taxi companies.

In summary, I strongly disagree with the decision and the way the manner is being handled. I intend to encourage lawmakers to do whatever possible to reverse the PSC's decision.

Sincerely,
Stacy Lindenberg

Importance: High

Hello, PSC.

What is your problem with Uber? Why do you find it necessary to strong arm our free society? Just because it's unique, safe, more affordable than taxi's doesn't make it wrong. Big Brother, get out of my face! You really ought to be ashamed.

Best,
Brian

Subject: Uber

While I respect the Public Service Commissions authority to manage companies doing business in South Carolina , I feel the PSC is stifling businesses and their creativity with their heavy-handedness with Uber.

I welcome Uber as a competitive cost efficient solution to the needs of the people of South Carolina. I no longer take taxis to or from the airport as the cost has gotten too high.

Uber has proven itself in many other states and has a loyal following of customers. I believe that Uber welcomes a type of registration or licensing that fits their model.

The People of SC need cost effective alternatives to the current model. My fear is that many entities in SC, all want a piece of the economic pie such as the Airport Authority and with Uber they are not getting a revenue share as with the current taxi situation.

Make it easy for people to use the service they choose.

Don't stifle entrepreneurialism and creativity, those are things that make America great.

Respectfully,
Billie Attaway
